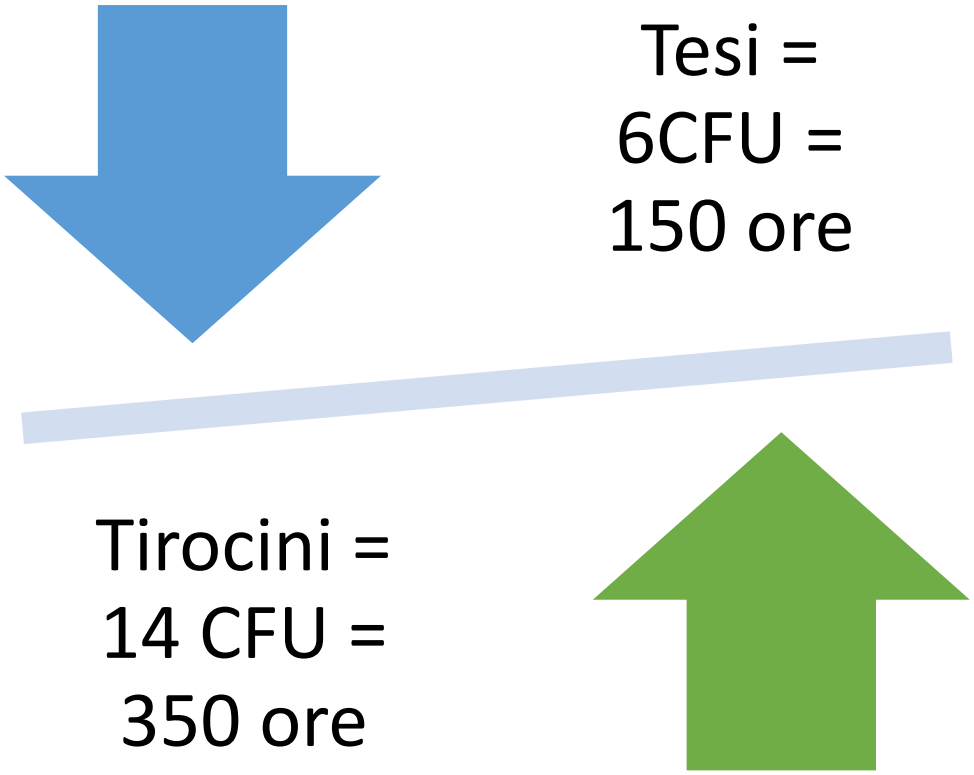
From internship to degree

La Commissione Tesi e Tirocini

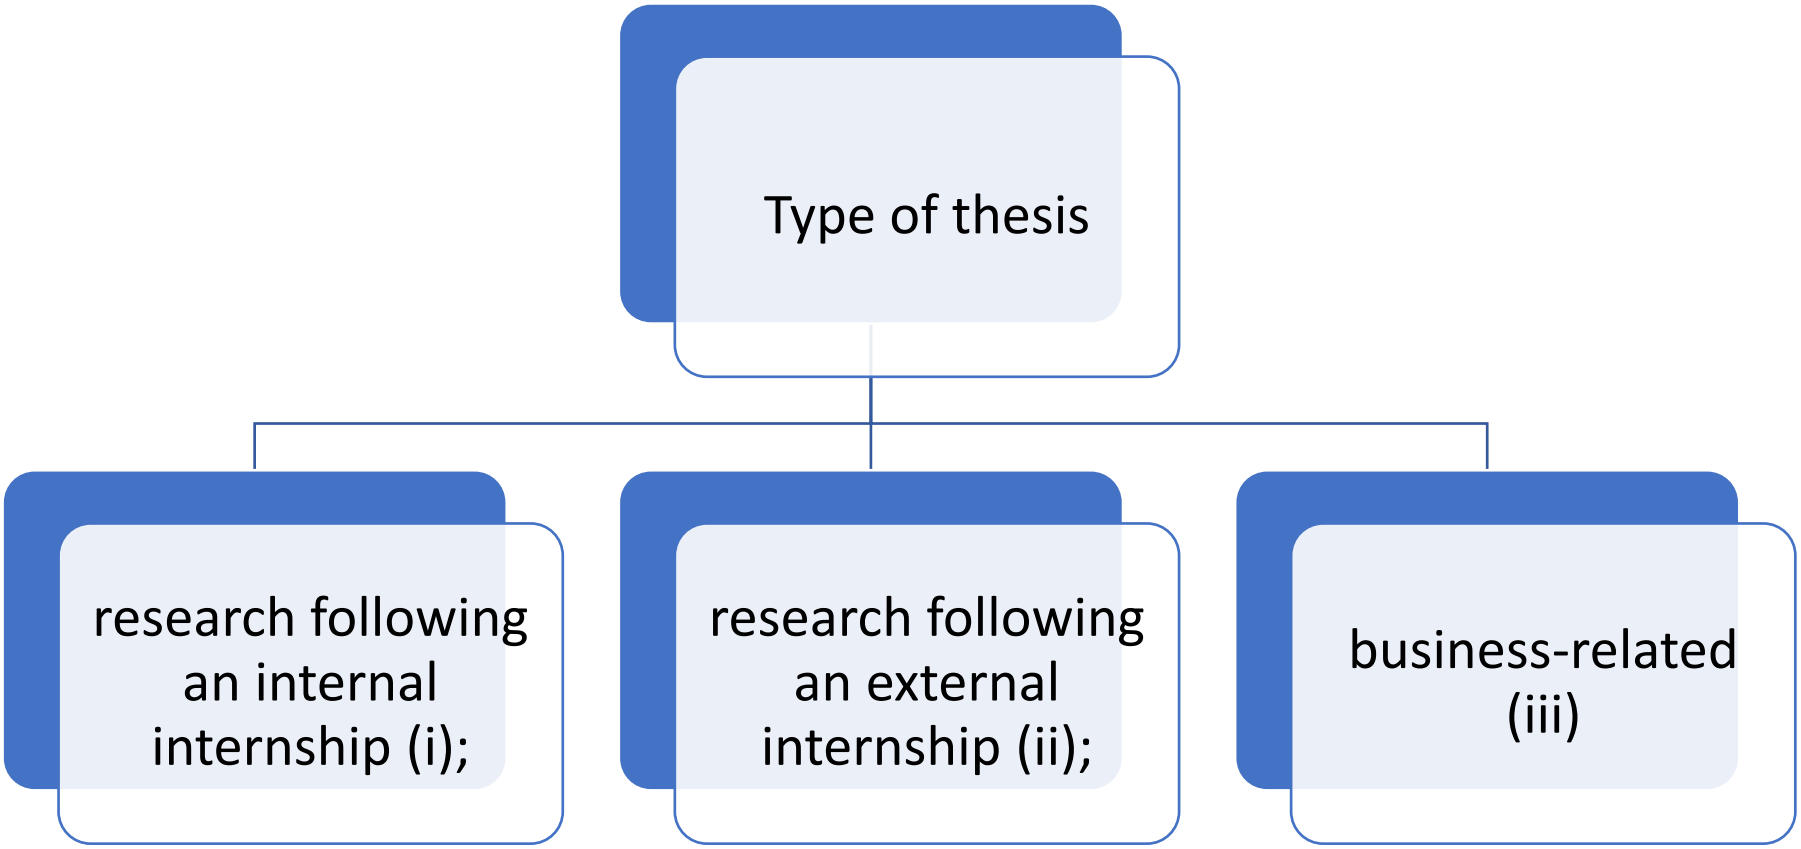
The Thesis and

Internship Committee

La rideterminazione del rapporto CFU tesi e tirocini



Theses Structure (1)



Theses Structure (2)

Theses (i) and (ii) will have the following structure:

1. Introduction: introduction to the topic using data and other sources (policies, laws, etc.); research objective; review of the literature.
2. Materials and methods: case study; data collection; analysis methodologies.
3. Results: The results of the analysis are consistent with the research objective.
4. Discussion and conclusion: critical discussion of the results in light of the bibliography/context/policies; conclusions of the study and future developments.
5. Bibliographic sources: description of sources using APA rules.

Theses Structure (3)

Thesis (iii) will have the following structure:

1. Introduction: introduction to the topic; the aim of the paper is a critical evaluation of the internship experience; review of literature/policies/actions to contextualise the tasks performed during the internship.
2. Materials and methods: the company as a case study; the tasks performed; the issues that had to be addressed.
3. Results: management of the issues that arose.
4. Discussion and conclusion: discussion of the experience in light of the insights gained from the bibliographic analysis or other material that the supervisor considers significant.
5. Bibliographic sources: description of sources using APA rules.

Good to know:

Types of internships

- Internships and internal dissertations: as proposed by lecturers
- External internships: with partner companies or on an individual basis

Start of internships

- Internal internships: **at the end of the winter semester**
- External internships: **at the end of the spring year** (unless otherwise agreed with the T&T Committee)

Good To Know

Procedure:

- Submit your proposal to the T&T Commission via the link for AA 2025/26 using this link
- There are **three windows** for submitting your thesis assignment request
  - For the July 2026 session: 26-31 Jan 2026
  - For the November 2026 session: 25-31 May 2026
  - For the March 2027 session: 21-27 Sept 2026

Assignment of a tutor by the T&T Commission

- Activation of internship on ESSETRE at the initiative of the academic tutor (if internal) or company tutor (if external)
- During internships: maintain contact with the academic tutor.
- Completion of the internship (after filling in the timesheet and questionnaire) by the student

Internal thesis projects

Available internal theses

Link to enter the academic supervisor/tutor you would like for your internship (internal or external)

Deadline for completing the questionnaire for the July 2026 degree session: 31/01/2026

How to find food companies

How to activate and close internships

Internal Internship

1. Identify the internal tutor (via contact details and link)
2. Activate the internship on ESSE3 via prof. D. Beghè
3. Approve the internship on ESSE3, indicating the name of the academic tutor
4. Close the internship by uploading the hours form and completing the questionnaire on ESSE3
5. The academic tutor receives a notification from ESSE3 and formally closes the internship

How to activate and close internships

External internships
