Course for Ph.D. students
XLII Cycle (1 Nov 2026 – 31 Oct 2028)

Curriculum
Innovation in Pharmaceutical Sciences

Preclinical research: from science to legislation
(1 ECTS)

Prof. Ilaria Zanotti
UNIVERSITY OF PARMA

Course language: **English**

Approximative scheduling: September 2027

The exact date and time will be announced by e-mail and on the website in the page "Active courses" for each session.

To attend the course please contact:
Ilaria.zanotti@unipr.it

Course description

The course will provide guidelines for the preparation of scientific studies using animals, in the attempt to promote the ability to plan an *in vivo* study and to critically evaluate strenght and limitations of the experimental approach.
In detail, the following topics will be addressed:

- Practical tips to build a robust experimental design
- European and Italian laws regulating the *in vivo* experiments
- Guidelines for the request of the authorization to carry out experiments involving animals

Evaluation: YES (MCQ Test)
