TABELLA A

Title / teacher	CFU	Semester	When does it start?	Assessment criteria
Carbon-based nanostructures for energy *Prof. Mauro Riccò*	3	1	End of September	Seminar on an advanced topic related to the course
Magnetic properties of materials from nano to macro *Prof. Massimo Solzi* *Dott.ssa Franca Albertini* *Dott. Milad Takhsha*	3	1	Please contact via email the teacher, to set the lesson timetable	Seminar on an advanced topic related to the course
Aspects of Semiconductor Physics *Prof. Antonella Parisini*	3	1	Early November. Please contact via email the teacher, to set the lesson timetable	Seminar on an advanced topic related to the course
Advanced fluorescence techniques *Prof. Cristina Sissa*	1	2	Please contact via email the teacher, to set the lesson timetable	Oral exam
Electron microscopy techniques for materials *Prof. Laura Lazzarini* *(membro di commissione UNIPR Prof. Davide Orsi)*	2	1	Please contact via email the teacher, to set the lesson timetable	Seminar on an advanced topic related to the course
Synthesis and characterization of porous organic materials *Prof. Alessandro Pedrini*	1	*2*	Please contact via email the teacher, to set the lesson timetable	Seminar on an advanced topic related to the course
DNA Nanotechnology and Amplification Strategies for Biomolecular Sensing *Prof. Alessandro Bertucci*	1	*1*	Please contact via email the teacher, to set the lesson timetable	Seminar on an advanced topic related to the course

Approvato dal Collegio dei Docenti del Dottorato in Scienza e Tecnologia dei Materiali
Parma 28/05/2026

IL COORDINATORE, Prof. Mauro Riccò
